MAKING A SPACE FEEL LIKE HOME is essential when designing a contemporary space. Especially with minimalism, which can sometimes feel too modern or sterile. Mixing materials, and laying texture and tones is the foundation of making a contemporary space feel like a home. Introducing rustic, imperfect elements creates a sense of balance and warmth.

IN ESSENCE, COASTAL MINIMALISM EMBRACES quality over quantity, functionality, attention to detail, maximizing space and curating a sense of calm. This is why coastal minimalism is so loved in tropical environments and why it is at the heart of so many great designs here in Costa Rica.
